SUMMARY

1.5+ years building production backend systems in Go and Rust. Built real-time trading infrastructure at Garden.Finance, shipped multi-chain integrations, and delivered tooling used in daily operations. Won 3rd place (\$1,000) at Polkadot Cloud Hackathon. Looking for backend SDE-1 roles focused on systems and distributed services.

TECHNICAL SKILLS

Languages Go, Rust, TypeScript, JavaScript, Python

Backend Axum, Node.js, Express.js, RESTful APIs, WebSockets, Socket.io

Databases PostgreSQL, MongoDB, MySQL

Infrastructure Docker, Docker Compose, AWS, Git, Gitea, Swagger, CI/CD

Frontend / Mobile React.js, React Native, Tailwind CSS

Tools Neovim, Figma, Android Studio, macOS / Linux (Arch)

PROFESSIONAL EXPERIENCE

Software Associate — Go & Rust

Hashira Works · hashira.io

Dec 2024 – Apr 2026

Built and maintained backend services for **Garden Finance** using Go and Rust across watcher services and on-chain extraction pipelines.

Built **Garden Analyzer**, an MCP-integrated analytics app over Garden.Finance multi-chain data, producing protocol metrics and trend reports.

Implemented **Spark** and **Lightning** integrations in Rust to expand cross-chain order execution coverage.

Built and maintained monitoring automation: Twitter high-value trade image generator bot (\$10K+), Strava-to-Discord bot, and a TypeScript arbitrage bot; still running in production after 3 design iterations.

Owned deployment scripts and internal tooling for self-hosted infrastructure on Gitea.

Backend Developer Intern

Navodita Infotech

Feb 2024 – Mar 2024

Built a multi-room real-time chat app with Node.js, Express, and Socket.io. Received a Letter of Recommendation.

Web Developer Intern

InternIQ

Mar 2024 – Apr 2024

Built and optimized web application features during a 1-month internship; received a Letter of Recommendation for performance.

Python Instructor (Part-time)

NRI Institute of Technology

May 2022 – Aug 2022

Taught Python fundamentals to first-year students such as file I/O, text analysis, logic-building exercises.

Designed and delivered beginner-friendly coding sessions including text analyzer, Rock-Paper-Scissors, and file handling projects.

PROJECTS

TravelID 2.0 *3rd Prize · \$1,000 · Polkadot Cloud Hackathon*

Rust, Axum, Subxt, React, TypeScript, PostgreSQL, Polkadot

Built a decentralized travel document verification platform on Polkadot using SHA-256 hashes and on-chain Subxt remarks.

Led backend implementation (Rust, Axum, Subxt) and co-built frontend wallet and QR verification flow.

Crypto Analyzer

Go, TypeScript, Claude MCP, Garden.Finance API, multi-chain data

Built an MCP-powered analytics app for Garden.Finance that evaluates protocol activity across chains and time windows.

Generated actionable metrics including 82% volume drop (Q2 vs Q1), 304% new-user increase, and 98% Starknet outbound dominance.

Animax — Anime Streaming App

React Native, TypeScript, Tailwind CSS, AniWatch API

Built a full React Native anime streaming app with browse, search, and episode playback flows.

Optimized API fetch and screen transitions for faster load behavior on lower-bandwidth mobile networks.

Real-Time Chat App

Node.js, Express, Socket.io, JavaScript

Built a multi-room chat app with live message broadcasting during internship; this became groundwork for Socket.io features later used at Hashira.

Automation Tools/Bots (Discord, Telegram, Twitter)

Python, TypeScript, discord.py, python-telegram-bot, GitHub API

Built a Discord music bot with queue and playback controls used in day-to-day community sessions.

Built Telegram and Twitter automation for GitHub release delivery and high-value trade monitoring.

EDUCATION

B.Tech in Computer Science & Data Science

NRI Institute of Technology, Agiripalli

2022 – 2026 (Final Semester)

Member of Google Developers Club; attended hackathons and workshops.

1st place in college-wide SQL mobile app competition.

Published two Android apps on the Play Store independently, end-to-end.

Intermediate — MPC (Maths, Physics, Chemistry)

Sri Chaitanya Junior College

2020 – 2022

SSC

Ravindra Bharathi Public School

2019 – 2020

LANGUAGES

English — Proficient · **Telugu** — Native · **Hindi** — Conversational · **Japanese** — Still Learning
